Popularity Contest To Be Feature Of Mission Bay Ball On Aug. 28th

Preparations for the Mission Bay Chamber of Commerce's first annual Mission Bay Ball to be held in the Mission Beach Ballroom on Thursday night, Aug. 28, were reported to be well under way by Clarence L. Dersch, who is in charge of entertainment for the affair. Mrs. Steven Young is chairman of the dance committee.

Mr. Dersch said that a feature of the event will be a contest to choose "the most popular girl in the Mission Bay area". This contest is open to girls between the ages of 15 and 21 who live in Ocean Beach, Mission Beach, Pacific Beach and other communities of the Bay area. "The winner will be rewarded with a substantial cash prize, and all runner-ups will receive a share of the tickets they sell," said Mr. Dersch. "To be eligible for the contest each girl must sell either 35 dance tickets or 35 new memberships to the Mission Bay Chamber of Commerce, or a combination of both totalling 35. Those who do not sell 35, while they are not eligible for the contest, will be permitted to keep 25c on each $1.25 ticket they sell."

Steven Young, president of the chamber, reports that the intermission floor show will be "outstanding professional entertainment from a downtown agency."

M. J. MASCE SUCCUMBS TO OVERDOSE OF SLEEPING PILLS, REPORTS CORONER

San Diego coroner's office reported Wednesday that M. J. Masce, an employee at the Servall Market on Voltaire, is believed to have ended his own life by swallowing an overdose of sleeping pills in his San Diego home August 12. He leaves a divorced wife and their three children and one sister, all reported to be living in Massachusetts.

Mrs. Clara B. Oehmke of 1812 Edgemont in North Park, from whom Masce had rented a room for five years, told The News Wednesday her belief was that he quarreled with a girl friend and evidently took his own life in a fit of despondency. Deputy Coroner A. E. Gallagher was in charge of the matter.

Arrangements for the funeral had not been completed at the hour of going to press.

San Diego Given Publicity in Post Issue This Week

San Diego is in the limelight this week by reason of an extended article publishing in the Saturday Evening Post, in the issue being received here this week. From Pres. Steven Young of the Mission Bay Chamber of Commerce, The News this week received the information that this is one of a Post series on "Cities of America." Young states:

"It is needless to point out to you that articles carried by national magazines on our city, and especially on our Mission Bay community, are the most desirous form of coverage for us here if we are to realize our ambition to develop our city to its utmost potentialities as a tourist mecca."

Here follows a direct quotation from this story in the Post:

"In the theater, music and the arts generally, public interest is reviving after a wartime slump, and in the world of sports San Diego is making headway. Sports fishing, the summer race-track season at Del Mar and the racing and bullfights at Tijuana are old standbys, but jai alai is something new there and has been going over well with fans from as far as Hollywood helping to swell the attendance at the fronton Tijuana.

"A fishing derby with $5000 in prizes for the biggest yellowtail is in full swing; big-time golf and tennis matches are being scheduled and the voters have authorized the city to spend large sums to develop the mud flats of Mission Bay into a low-rental recreation area for swimmers, yachtsmen, surf-boarders, fishermen and loafers. If San Diego does not become an all-around sports heaven in the near future, it will not be for lack of trying on the part of the Booster's club, recently formed to hasten the day."

Armstrong Says We Will Get Our Part Of Mission Bay Trade

Speaking before the Ocean Beach Kiwanis club Tuesday evening, Tom Armstrong, head of the San Diego advertising firm of Armstrong, Griffith and Requa, took the occasion to declare that "Ocean Beach being in gunshot of Mission Bay park, the greatest development of its kind in the U.S., is bound to get its share of the trade that will come to this area by reason of this big recreational project provided, of course, that Ocean Beach does its part to make attractive to the tourists all its various assets." He and Miss Paula Sullivan, a member of his firm's staff, were the guest speakers on the program, for which Bill Morlin was the program chairman.

Speaking especially to the business men, Miss Sullivan, who served in the war for three years, said that "public relations is the art of earning and winning the confidence and good will of your community. And it's not a one man job, it's the job of everyone who is working with you in your business."

Armstrong, who has been at the head of his advertising firm in San Diego for 12 years, spoke on the "Fundamentals of Advertising."

"We are through with the war boom and must make the readjustments necessary in order to face the facts of life in post-war business. Though there might be some reason to reduce expenditures for advertising in boom times, when you have more business than you can take care of, certainly it is not good business to retrench on advertising when business falls off. To stop advertising in order to save money is like stopping the clock to save time."

The speaker prefaced his main remarks by saying that Ocean Beach is a self-contained community with compact, convenient and attractive business districts, and is blessed with upstanding, courteous and alert business men.

First visitor at the meeting introduced was David Elsey, a guest of Homer Gravelle, whom Homer referred to as the "biggest small business man in Ocean Beach." Other visitors were Carl Oberg, a guest of Heber Hartvigsen, and one visiting Kiwanian.

Convair Engineer Tells Lions About Less Plane Sound

Engineer Jackman of Convair was the guest speaker at the Thursday, August 7 meeting of the Ocean Beach Lions club, on the subject of "Sound". His topic mainly concerned the noises on airplanes and he went into detail to show what the plane engineers are doing in their experiments to reduce as much as possible the roar and other operational noises of airplanes.

Jackman illustrated his talk with slides and charts that helped greatly to explain the engineering experiments being carried on by the research department at the Consolidated plane factories.

Perry W. Metcalf of San Diego, district zonal vice president of the Lions, was a distinguished guest at the meeting, held in the Ocean Beach Recreation center building.

At the business session, Bud Kidwell of the Kidwell Malt Shop on Voltaire was inducted into membership.

The Beachcomber

Seen: An Aug. 2, 1876, edition of the Denver Rocky Mountain News, which belongs to Al Keogh, and which Al brought into the office the other day. . . . Although a trifle yellow with age, the four page sheet was still easily legible, and among other things told about the news sensation of the day, the Custer Massacre. . . . The Republican party advertised Rutherford B. Hayes as its candidate. . . . Al also showed us a magazine section from the April 14, 1907, Rocky Mountain News. . . . This was replete with the affairs d'amour of tight-waisted women and, but for the styles, might have been confused with today's magazine sections. . . . The ads offered some fine horseless carriages, showing a startling resemblance to today's hot-rods. . . . These jalops were offered at a wide and remarkable (from today's standards) price range—from $400 to $4250.

Heard: Much unfavorable comment about the city's tentative plans for the location of the trans-Mission Bay bridge.

Bouquet of the Week: To the local people who have been devoting their time and effort to improving the buildings and grounds of Ocean Beach's Door of Hope home, one of San Diego's most deserving institutions.

Joe Beardsley

(Studio of the Cliffs)

Our Neighbor for this week is none other than Joe Beardsley, popular owner of the Beardsley Funeral Home and treasurer of the Mission Bay Chamber of Commerce. Joe is one of Ocean Beach's most ardent boosters, and proves it by his energetic thumping for beach improvements and the Mission Bay development.

Joe was born March 9, 1911, in Chariton, Iowa. He attended elementary and high schools in that city, and after graduation enrolled in Wentworth Military Academy. Joe decided to go into business with his father, who was a mortician, so after graduating from Wentworth he entered the Hohenschuh-Carpenter College of Mortuary Science in St. Louis. Upon completion of this course, he passed the Iowa state examination and went into business with his father in Chariton. On Aug. 9, 1941, Joe married Vera Frances De Somber of Lucas county, Ia.

In the spring of 1942 Joe sold his mortuary in Chariton and he and Mrs. Beardsley decided to make their home in California. Arriving in San Diego, Joe accepted a position with the Dawson Mortuary. Later he went to Los Angeles where he enrolled in the California College of Mortuary Science. Upon completion of this course, he obtained California state licenses and set out to find a suitable location for a new mortuary. After a four-month tour of the state, the Beardsleys decided that Ocean Beach was "just the place."

With the help of the Ocean Beach Chamber of Commerce, Joe was able to secure a suitable location on Sunset Cliffs Blvd. for the proposed mortuary. Work was begun shortly and on Oct. 7, 1946, the doors of the fine new Beardsley Funeral Home were opened. Since then the Beardsleys have added an ambulance service to their enterprise.

Mr. Beardsley's organizational activities include, besides being treasurer of the Mission Bay Chamber, a directorship on the board of the Ocean Beach Kiwanis club, and membership in the San Diego Funeral Directors Assn.

In between his business, club and civic activities Joe finds time to indulge in a wide range of sports, including tennis, golf and boxing. He can frequently be seen hard at work in the lawn of his imposing establishment, with his huge Great Dane, "Ranger", giving moral support.

BETHANY JUNIOR LEAGUE ENJOYS PICNIC AUGUST 9

Meeting of the Bethany Junior League August 9 at the Lutheran church school was opened by Mary Dee Clark at 10:30. Six members answered the roll and three guests were present. The topic, led by Richard Wunzel, was "Without Being Told". Rodger Riggs will be topic leader at the next meeting, it was announced. June Buss was the Walther League counselor for the day, and the youngsters took a picnic lunch to Presidio Park and also visited Ramona's Marriage Place. On August 2 Mrs. Wunzel was counselor and took the group to play miniature golf at Nip and Tuck.

THEOSOPHICAL SOCIETY STARTS BUILDING FUND

The Theosophical Lodge established a building fund to be used in completion of the new lodge building here, at the society's meeting Wednesday evening at the group's hall in Ocean Beach. Special guest was Mrs. Madelein Kuehner of the Theosophical headquarters at Covina, Calif.

Mr. and Mrs. Tom Arnold and son of 4525 Saratoga Ave. are in the East on an extended vacation trip. Their principal stops planned are in Indiana and at Atlantic City, N. J. Tom, who is a member of the force at the Ocean Beach Hardware store, expects to be back on duty by September 1.

Mrs. Frank Fritz and her daughter Donna Lou of Wyoming, Ill., departed August 13 for San Francisco after a week's visit with Mr. and Mrs. Otto Von Seeger of 600 Catalina Blvd. Mrs. Fritz is Mrs. Von Seeger's sister. With her daughter she will visit with friends in San Francisco before returning to Illinois.

Girl Scout Head Appeals for Leaders

Mrs. E. F. Olson, neighborhood chairman of the Girl Scout troops of this area, informed The News this week that of the six Girl Scout troops now active in Ocean Beach, most of them are inadequately staffed. "Furthermore, the Brownie troops of last spring will shortly be graduating some of their members to the intermediate troops, increasing the need for more leadership there and making room for more members in the Brownie troops," she said. "Summarily, the Girl Scout leadership in Ocean Beach is valiantly striving to lead the younger girls of the community to better citizenship and more gracious living, but against the throngs of eager girlhood who are now or are potentially interested in scouting, the handful of capable leaders in the movement here are finding their job up-hill work."

Runaway Car Plows Into Wiltse Home On Guizot St. Saturday

Passers-by on Guizot street Saturday, Sunday and Monday this week were treated to the spectacular sight of an automobile with its grille embedded deeply into the front of a house in the 2100 block on that street. The house was that of Mr. and Mrs. Robert A. Wiltse, and the car belonged to J. G. Crook of Dallastown, Pa., who was visiting at the home of Mr. and Mrs. S. L. Barlow, 4453 Muir Ave.

No one was hurt in the accident, the car being unoccupied. Mrs. Wiltse was in her living room at the time, however, and was, to say the least, surprised when the car crashed into the front of the house. She was thrown from the chair in which she was sitting by the impact but landed unhurt on the floor. Damage to the car was not serious, but the house sustained broken windows, cracked plaster, and at first it appeared that the whole front of the house might cave in. Latest reports are that the wall can be repaired.

Mr. Crook had been standing in the Barlow yard, having finished unpacking his 1940 Buick, when the car started rolling downhill. His attempt to jump into the runaway auto failing, he was obliegd to watch it crash into the Wiltse home a block away. He reported that the car was covered by insurance. Delay in the arrival of the insurance adjuster accounted for the car remaining in its unusual position over the weekend.

Mrs. Quinn Hostess To Several Guests

Mrs. Ona Quinn of 4415 Temecula holds this week's record for hospitality. Since last weekend she has entertained four different parties at her home. The first of her guests was Mrs. Mollie Burwell of Coronado, who spent last weekend with her. Then came Mrs. Charles Shaw of San Diego. For these guests their hostess arranged a pleasant beach party. Their visit was followed by Lt. and Mrs. Rollin Haessler of San Diego, and finally by Capt. and Mrs. Herbert F. Sammis of Red River Arsenal, Tex. Lt. Haessler left Monday for duty in Japan, and Capt. Sammis is scheduled to depart soon for Germany, where he will serve with the Army of Occupation.

BELATED ANNOUNCEMENT

The News this week received a belated announcement of the marriage a year ago of George McKeon, popular Beach musician, to Penny Holm, pianist and singer. The couple was married in Yuma, Ariz. August 19, 1946. Their first anniversary will be celebrated Tuesday with a party in their home at 4611 Santa Cruz.

Norma Tangles With Fish Off Florida Coast; Pedals On

This week Norma's letters describe the coastal areas of Florida. Miss Belloff, daughter of Mr. and Mrs. F. H. From Jacksonville, Norma plans to cycle to Palm Beach, Miami, on out the Keys, by boat to Havana, Cuba, and back-track to Jacksonville and on up the east coast. Excerpts from her letters to her mother follow:

Two Bridges Instead Of One Asked Of City

Reasons for Route Change Given To The News by Rick

"We have what we consider two valid reasons for the proposed new change in routing of the bridge and road through Mission Bay between Ocean Beach and Mission Beach," City Planning Engineer Glenn Rick informed The News Tuesday. He phoned the publisher of The News and announced that the two following are the main reasons for the recent change made in this route:

1. The need from the standpoint of the boatmen to increase the size of the proposed commercial boat basin in Mission bay, in order to provide for the sale and servicing of sail and power boats. The enlargement is to be from 40 acres to 80 acres. These boatmen and particularly the yachtsmen, had objected to the smaller area as greatly insufficient.

2. The second reason deals with funds available and in prospect. Instead of the two bridges over the flood channel as originally planned we are now planning only one

STRONG OPPOSITION TO NEW MISSION BAY PLAN OF ROADS VOICED HERE

At conclusion of a lively two hour discussion on Mission Bay park plans a joint meeting of representatives of the Ocean Beach Chamber of Commerce, the Kiwanis club, the Lions club, the Mission Bay Chamber of Commerce and several other Ocean Beach civic and patriotic organizations, passed a motion asking the City Planning Commission to provide for two bridges over the San Diego river flood channel instead of one and to limit the proposed boat basin for commercial fishermen and sport fishermen to 40 acres, as originally planned, instead of 80 acres as outlined in the new plans. The meeting was held at the Community Recreation center from 1 to 3 Wednesday afternoon and drew an attendance of about 40 of the leaders of the respective organizations.

Milton Lancaster, as chairman of the Civic Affairs committee of the Ocean Beach Chamber of Commerce, presided and gave every one present an opportunity to be heard. The matter had been turned over to the Civic Affairs committee at a special meeting of the O.B. Chamber's board of directors held last week, and the committee had met Friday last in order to discuss the matter and to prepare for the meeting here Wednesday.

Latest maps of the Mission Bay park area as prepared by the City Planning Commission were shown and the city's recent proposed changes of the routing of the highway and bridge between Ocean Beach and Mission Beach were explained by Chairman Lancaster. He then called on representatives of every organization to air their views. The talks were nearly all in opposition to the city's latest plan of routing the said highway.

Pro Arguments Listed

List of main arguments advanced by the speakers to the new road routing included the following:

Ocean Beach in large measure would be by-passed and left in a "pocket", so to speak.

The route between the two Beach communities would be much more round about and likely a mile or a mile and a half longer around than noted in the original plans for the Mission Bay development.

Mission Bay C. C. Talks Over New Mission Bay Road

A motion to oppose San Diego city's plan to re-route the Mission Bay road between Ocean Beach and Mission Beach offered at the August meeting Monday night of the Mission Bay Chamber of Commerce was voted down. The meeting was held in the Ocean Beach Elementary school auditorium and was called to order by Steven Young, president of the group.

Most of the talk on the main question at the meeting was in opposition to the change of route, voicing the principal objection that Ocean Beach was being by-passed more than ever. Various speakers charged that Ocean Beach had not been given a fair opportunity to be heard at the Civic Center conference at which the change in route was decided. Announcement was made that neither the Mission Bay Chamber of Commerce nor the Ocean Beach Chamber of Commerce had received an official invitation to attend said conference.

Concensus of opinion prevailing, however, was for the matter to be turned over to the Civic Affairs committee for further investigation and with instruction to report findings at the group's next meeting.

Main report at the business session was given by Clarence Dersch, and was on the Mission Beach dance slated for August 28 that is being sponsored by the Mission Bay Chamber of Commerce. Dersch reported that 6400 tickets had been sold to the dance at $1.25 each, and that 25 cents was the amount of the tax to be paid on each ticket. The net receipts after tax would be $6400. The net that would accrue to the Chamber of Commerce was not reported. Dersch also announced a young ladies popularity contest would be held in connection with the dance and an additional $500 of receipts was expected from that source.

Following the formal session Dersch provided an entertainment program at which he presided.

Ocean Beach Nine Splits Even, Opening League Second Half

Ocean Beach Merchants' entry in the city A.A.A. softball tournament defeated a highly favored Modern Woodmen nine Friday night at Horace Mann playgroud 1 to 0. Big blow of the game was second baseman Sam Thorpe's third inning home run. In achieving his victory pitcher Glenn Guthrie struck out 15 of the Woodmen. Summaries follow:

Ocean Beach—1 run 3 hits 2 errors

Modern Woodmen—0 runs 3 hits 0 errors

At the same playground Monday night the Merchantmen receipted for a 9-to-2 shellacking at the hands of the Campbell Machines. Loose play in which eight Ocean Beach errors were committed was responsible for eight of the Campbell runs. Summaries follow:

Ocean Beach—2 runs 5 hits 8 errors

Campbell Machines—9 runs 5 hits 2 errors.

Adults Make Merry In Banner Family Night at Center

"Family Night" last week (August 6) was a "banner" night event at the Ocean Beach Recreation center, The News was informed this week by Frances Curry, secretary of this particular group. She reports that "more people came out and took part in the games than at any previous meeting of this kind."

The program committee was comprised of Art Smith, Frances Sohnlein, Ruth Thomas and Harry Curry, under the direction of the club president, Stanley Grobecker. Participants were asked to register upon entering for the games in which they were particularly interested. The system consisted in drawing from these registrations the players in specific games, according to the preference of the player. Volley tennis was added to the list of games available.

The Pearsons and the Allens battled it out on the badminton court and Frank Root appeared to observers to be winning the ping pong tournament. The kids also were having a wonderful time with a bingo game conducted by John Wood, director of the Recreation center. About 30 of the small fry were in on this event.

The evening was topped off with coffee and doughnuts, with lemonade for the little folks.

Meet Palomar Club Aug. 11

The group met Palomar club August 11 in the Balboa park municipal gym for a set of volleyball games, in which the Ocean Beach men won and the Ocean Beach women lost. A mixed team contest resulted in a draw.

The "Family Group" is still looking for volunteers to assist at Balboa Park when the local Community center will display its exhibit of hobbycrafts in a two-day show there.

Telephone Employe Believed Drowned In Ocean Aug. 11th

Lifeguards Wednesday were continuing the search for the body of Lynne D. Wordell, 40, who was presumably drowned here the evening of August 11 as he was swimming in the ocean at the foot of Santa Monica Ave. To date efforts to recover the body have been unavailing.

Wordell, an employee of the Southern California Telephone Co., was swimming with a friend, Irene Rampley of San Diego when a riptide carried him out to dangerous waters. Lifeguards John Kowal and Gordon Penwarden who were assigned to the case, are being assisted by Patrolmen G. L. Dunbar and R. P. Fargel.

Wordell's automobile and other personal effects were turned over to Deputy Coroner A. E. Gallagher.

Local Dogs To Be Entered In Silver Bay Show Aug. 23-24

"Opus o'Schlintz," a seven months old female beagle hound, is being primed for her first show. Owned by Mr. and Mrs. Curtis Brown of 4914 Brighton, the animal will meet stiff competition on August 23 and 24, when the Silver Bay Kennel Club's all-breed dog show is held in the Federal Building, Balboa Park. Among contenders for the supreme place of best dog in the show will be two other local entries: "Pojke of Barmere," a boxer owned by Mrs. Marilyn J. Eckenberg of 4647 W. Pt. Loma Blvd. and "Excellent Lady of Moira," a springer spaniel owned by Max Lampson of 1862 Cable.

The animals will be grouped in six general classifications: sporting dogs, hounds, working dogs, terriers, toys, and a non-sporting or miscellaneous category. From these large groups a process of elimination will ensue, disqualifying all but the most superior representatives of specified breeds, until the final group has been narrowed down to a very few outstanding dogs. This will occupy the better part of the two-day showing, entailing the awarding of prizes to winners in the various breed classifications.

Nine judges from all over the United States will be on hand to weigh the merits of the entrants. These experts include the especially popular Lew Starkey of Pasadena, Vincent Perry of Wyandotte, Mich., and Mrs. Nancy Lee Nannetti of Oakland. Best dog in the show will be judged by Derek Rayne of Carmel ,Calif.

The show will be conducted under rules and regulations of the American Kennel Club, with which Silver Bay is affiliated. Fleetwood's pet store is prepared to assist local owners with information and registration blanks.

J. E. Anderson and Wisconsin Woman Married August 12

Doing more, perhaps, to link the East and West than the Lincoln Highway are the marriages, in ever growing frequnecy, between Westerners and their neighbors of the East. The latest of these here reported is the nuptial service which united Miss Beverly Betsy Scoville and Jean E. Anderson of Ocean Beach Tuesday evening at First Methodist church in San Diego. Beverly is the daughter of Mr. and Mrs. Maine H. Scoville of Seneca, Wis., and the bridegroom is the son of Mr. and Mrs. Harold K. Anderson of 4344 Santa Cruz. Rev. George A. Warmer read the vows.

Attended by her sister, Miss Norma Scoville of Seneca, Beverly was given in marriage by her cousin, Claire Thompson of San Diego, and Jack V. Anderson, the groom's brother, was best man.

For the simple but gracious ceremony the bride wore a grey suit with pastel green hat and accessories. With this ensemble she wore an orchid corsage. Her maid of honor was dressed in an aqua suit with white accessories and upon her shoulder was pinned a corsage of gardenias.

At the altar two large baskets of gladioli added fragrance and beauty to the affair. After the ceremony the newlyweds departed for a two weeks' honeymoon trip northward to San Francisco and the Redwood Empire.

Besides Miss Norma Scoville, who came west from Seneca for the wedding, guests from out of town included Mr. and Mrs. T. H. Snow and their daughter Brenda of Salt Lake City.

Beverly is a graduate of La Crosse, Wis., schools and for some time has been employed in San Diego.

Jean was educated at Hoover high school in San Diego and during the war he served three years with the United States Navy at Vallejo, Calif. He is currently employed as a metalsmith at the Naval Air Station on North Island.

Upon their return from their wedding trip the couple will reside in San Diego.

Musical Theme For Birthday Party At George McKeon Home

The home of Mr. and Mrs. George McKeon at 4611 Santa Cruz was the scene August 11 of a gathering which started out as a birthday party for Mrs. McKeon but which ended in a concert of internationally popular musicians.

Mrs. Caroline Wolfe, formerly of the Columbus, Ohio Grand Opera Company entertained with several numbers, accompanied by Jesus Acugna of Los Angeles at the piano.

Mrs. H. P. Nichols and Mrs. A. A. Camper sang a few Russian selections with piano accompaniment by Mrs. McKeon.

High-spot of the affair was one of the first performances of composer Dr. Espana's newest work, "Concio Exotica," which was played by the maestro himself.

Host George McKeon sang some of his songs, including his latest, "I Want to Go Round."

The guest list included Lt. Commander and Mrs. A. A. Camper, Mr. and Mrs. Frank Wolfe, Mr. and Mrs. Jose Groupo, Mr. and Mrs. H. L. Nichols and their children, Al and Nona, Miss Eva Garcia, Mrs. A. A. Lebedeff, Val and Miss Irene Lebedeff, and Mr. and Mrs. Paul Volz.

DuValls Entertain On First Wedding Anniversary, Aug. 9

Borrowing the delightful patio of Mr. and Mrs. S. G. Fold of 2345 Seaside, Mr. and Mrs. V. Paul DuVall entertained a host of friends August 9 on the occasion of their first wedding anniversary. The couple received many congratulatory gifts, and prizes were offered to winners at bingo. The guests danced to recorded music, and an appropriately decorated anniversary cake was served.

Present were the following guests: Mr. and Mrs. Howard DuVall and their son Howard Jr., Mr. and Mrs. J. M. Larson, Mrs. Fred Riese, Mr. and Mrs. W. J. Boise, Mr. and Mrs. John Lovern, Miss Winnie Wieglow, Mr. and Mrs. Ivan E. Lipsey, Mr. and Mrs. J. G. Hickey, Mr. and Mrs. Samuel G. Fold, Mr. and Mrs. Jess Richmond, Mr. and Mrs. Ross A. Parsons, Mrs. Anne Klamt, Miss Lavonne Jackson, John F. Walker, and out of town guests Mr. and Mrs. Joe Maloto and son of Vallejo, Calif., and Mr. and Mrs. H. L. Crain of Clearfield, Utah.

MRS. RIGG TO BE HONOR GUEST AT LITTLE THEATER

Invited to be guests of honor at the anniversary performance of "Under the Gaslights", presented by the La Mesa Little Theatre Players in the La Mesa grammar school auditorium, are Mrs. Katherine Rigg of 4835 Saratoga and Mrs. Nelly Kelly and Mrs. "Bunny" Cleare, both of San Diego. The performance tonight, Friday, will mark the 80th anniversary of its initial opening in New York, August 12, 1867, when A. H. Davenport was the star in the leading role.

OCEAN BEACH NEWS

DECREED A LEGAL NEWSPAPER BY THE SUPERIOR COURT OF SAN DIEGO COUNTY

Two Bridges *continued*

(From Page One)

Beach taken away from its present location and had in spite of that voted for the $2,000,000 city bond issue in good faith that the route and bridge would not be placed further away and more round about.

Proposed boat basin enlargement, if commercialized with extensive boat docks and boat repairs, would greatly detract from the beauty and recreational aspect of the Bay area.

With only one flood channel bridge, the one bridge and the Causeway road would not be wide enough to carry the traffic especially on weekends, Sundays and holidays.

Making a new road between the Bay park from the flood channel bridge to Harbor Dr. via Wabaska Dr. would further divert traffic away from Ocean Beach.

Changes Suggested

Several of the speakers also made the following suggestions as to changes that might improve the plan for the Bay park:

First, and foremost, was a suggestion to move the proposed Bay traffic circle south almost to the flood channel bridge, and make the circle the radiating center for six diagonal routes, one from the Causeway due south cutting across West Point Loma Blvd. as now proposed; one from Mission Beach diagonally southeast to tie in with Midway Dr., using the present Causeway road to Midway Dr. instead of taking it out; one from Highway 101 diagonally southwest through the traffic circle and extending southwest to the foot of Sunset Cliffs Blvd. The foregoing suggestions would mean three bridges instead of one over the flood channel but the advantages of the three pointed out was that they prevent traffic congestion.

Tunnel Under Channels Suggested

Another suggested new alternative would be a tunnel under the two channels proposed to be made between Ocean Beach and Mission Beach at the site of the present Mission Bay bridge. One speaker advanced the idea that such a tunnel would not cost more than two bridges over the flood channel and would effectively retain the present convenient route between Ocean Beach and Mission Beach. One speaker stated that tunnels under waterways are more and more taking the place of bridges, especially in the east.

Committee to Meet Friday

The local Chamber of Commerce Civic Affairs committee will meet again today (Friday) noon Chairman Lancaster announced and would then mull over suggestions made at Wednesday's meeting. He also asked each representative of an organization present to carry back to their respective groups the suggestions made, the action taken, and then, if found advisable, a mass meeting for all of Ocean Beach would be called.

bridge, and the big reason simply is a matter of economy.

Tells of State Aid

Elaborating on the second reason Rick stated that the state fund of $1,826,000 authorized, part of which has already been appropriated, must be spent on flood control under the conditions of the authorization. Part of that total already has been appropriated by the state. Part of that appropriated, in fact $446,000 of it, we will have to spend before Feb. 1, 1948. This latter sum will repay San Diego city for cash the city already has spent for purchasing of land and on the flood channel. The difference, totaling $1,380,000 which the state will give us is for bridges and drainage structures. (Evidently by bridges Rick referred to the one proposed bridge over the 1000-foot wide flood channel and the other the 50-foot high clearance bridge between Sunset Point and Ventura Point.) "Because of that we need to economize on bridges and there is in this fund money enough for only one bridge over the flood channel."

South Jetty Lengthened

Regarding the south jetty, the one of the three proposed jetties to be built out into the ocean, in which Ocean Beach is the most interested, Rick announced that the plan now is for the south jetty to extend out a distance of 1600 feet, or twice the distance originally planned. Though the other two jetties, one for each side of the mouth of the bay entrance, will be each nearly twice that length Rick indicated, he went on to say that the purpose of making the south jetty shorter is to make sure that all sand and silt that is swept out to sea from the flood channel will be diverted to the south of the south jetty and will there build up the beach adjacent to Ocean Beach.

Revised Route Plan Not Final

Rick concluded his remarks by announcing that the new proposed change in routing of bridge and highway between Ocean Beach and Mission Beach has not yet been made final, nor has it been finally adopted, leaving the inference that there is yet opportunity for other changes to be made.

Episcopal Group Holds 1st Meeting Sunday, Aug. 10

The proposed church building for the Mission of Christ and All Souls, Episcopal, which held its first services at the Gladys Bowen studios, 2905 Chatsworth Blvd., on Sunday, August 10, will accommodate approximately 200, said Mrs. Theodore W. Gauss, 3610 Plumosa Dr., chairman of the organization committee.

A fund has been set up by the Rt. Rev. W. Bertrand Stevens, Bishop of the Diocese, to be used as a down payment on the ground the church will be built on. The architectural plans have not as yet been completed.

Conducting Sunday's services was Dr. Hanford L. Russell, Rector. He spoke on "You Shall Receive—When?".

Mr. and Mrs. N. O. Perdue, 4236 Newport, are on a three-week's vacation which will be spent motoring to Catalina, San Francisco, and as far up the coast as Canada. Mr. Perdue is the owner of Perdue's Meat Market in the Pt. Loma Store.

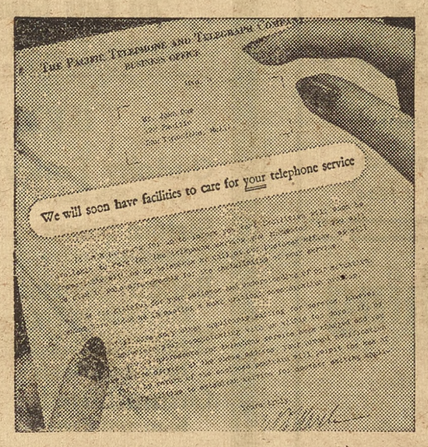
Our favorite letter to you

Starts like this: "We will soon have facilities to care for *your* telephone service" . . . So far this year we were able to send out these letters to thousands of people—provide 125,000 more telephones for Western homes and businesses. But meanwhile thousands of new orders came in, which await their proper turn.



If you're waiting for such a letter, we want you to know we're speeding this year's record-breaking construction program for the Pacific Coast States . . . new buildings, central office equipment, wires and cables . . . about two hundred million dollars worth of the things needed to bring service to everyone who wants it.

There will still be a delay—in some cases a long delay—before we can take care of all who want telephone service. But we are hurrying the day when our Service Representatives will again be able to promise you a telephone the day you want it. That's our goal . . . and we're working all-out to achieve it.

New Working Dollars . . . Millions of new dollars needed to build buildings and buy new equipment to meet the public demand for more telephones and more service do not come from telephone bills. New dollars come from people who are willing to put their savings into the business. We must earn enough to attract these new working dollars.

Ocean Beach Boy Realizes Ambition To Get On Radio

Even if their billfolds aren't bulging with the money they've earned, a group of teen-aged patrons of the Ocean Beach Branch Library will have a store of valuable experience when this summer is over. Led by Donald Freatman of 5066 Del Monte St., they have become the writers, arrangers, producers, sound-effects, and stars of a radio program called "Fairy Tale". (KYOR Sat. 9:45 a.m.) Donald is the son of Mr. and Mrs. Alvin Freatman of the Del Monte address.

Last winter Donald decided it would be nice to be on the radio so he approached the program manager of KYOR and asked if there were any children's radio drama in which he might appear. To his delight and amazement, he was told that he might have 15 minutes on Saturday mornings to produce his own program. He didn't stop to wonder at his luck but set to work on his scripts. It might be well to add that Donald never wonders why he gets people to do things for him. To use his own words, "All they can do is say no, and that doesn't bother me".

He has been using the library's fairy tale collection as material for his scripts. He and his three "partners" write their own arrangements and enact all the parts of the fairy tale characters over the air.

Recently, through the encouragement of another library patron, Mrs. Ann Fletcher, Donald has gone in search of a sponsor. He had never even thought of being paid for his efforts, sponsors meant only big name manufacturers. From his latest report, he had managed to interest a local sponsor and is now working on the financial side of the agreement.

"The program is worth listening too," reports the publicity department. "The voices sound mature and well trained. In fact, a casual listener might be inclined to think the program was being produced by a group of experienced adults rather than ninth-graders."

Donald also has been taking his group to the children's wards of several local hospitals to act out the stories for the young patients. He has collected several gifts from San Diego stores to be given to the sick children. He also intends to ask Gregory Peck to appear on his radio program. "All he can do is say no", says Donald.

jail. I bought a box camera. Sure wish I'd had one sooner.

Friday, the 11th, I left Pensacola. Spent a whole day at Pensacola Beach which is seven miles from town. Never in my life have I seen such clear salt water! It lay like a huge jewel, transparent pale green where it touched on the whitest of sands; it darkened as it deepened to a brilliant deep green; then became a glittering bottomless blue. No matter where I swam I could see my body under the water as if looking thru glass.

Little three-inch yellowtail fish clustered around my ankles, nipping at my legs and feet. The first time I swam out to the deep water some eighteen-inch-long fish swam with me—just curious at first, then nipped my suit strings, my back and legs. The second time I swam out some shark-like porpoises came swimming by. I hurried out among them to play (another of my dreams turned into reality!). I had just finished reading about sharks the day before and felt sure of what to do if I really did see some. I returned to shore, built a drip castle and then swam out farther than before.

Suddenly to my horror I saw a school of man-sized fish just below me. They kept edging closer. I didn't wait to see if they were curious or hungry but began swimming, evenly, steadily towards shore. My throat was so tight I could hardly breathe — it ached for an hour afterward. When I could touch bottom again I felt safe, but a man swimming near me and the people on the beach were terribly frightened. The man said, pointing, "My Lord, there's a barracuda!"

We quickly walked toward shallower water. I explained how I'd watched the fish follow me in from a group out in deep water. He said barracuda are said to be vicious and everyone is afraid of them, but tho he has lived here a good part of his life he's never heard of anyone being bitten by either a shark or barracuda, but has caught and seen them caught from small boats.

He loaned me his face plate and I had a glorious time exploring the under-water world. I got so interested that several times I forgot I had to come up for air until my aching insides reminded me. The yellowtail seemed satisfied to follow me about like I was a mother fish. They made such a pretty escort fleet and were so fearless, I could catch them in my hands. I dove, twisted and turned just to watch them follow me. I'd stop quickly and sit on the bottom, and they'd cluster about, staring me in the face, waiting my next move as if daring me to out-maneuver them. I'd burst out laughing and have to surface.

The man who loaned me the face plate grinned at my cavorting, but refused to swim out with me to the deep water to see the big fish and asked me to come back when I started to go alone. I was very reluctant. The deep water drew me like a magnet; I longed to explore the matchless beauty I knew it contained.

Last night I slept on Florida sand amid a mosquito swarm, thumb-nail-sized red ants and 6-foot live oaks. Frogs sang me to sleep. The rasping bark, of what I guessed to be a fox, woke me in moonlight beauty. I couldn't see the creature and couldn't talk him into coming any nearer, so I put on more repellant and slept again. A light rain woke me just at dawn. The sunrise was glorious, as always, and I plan to take a big bite into Florida today.

Lots of people recognize me or are curious. I've earned several meals by telling some of my adventures. The wider eyes get and the lower jaws drop, the more I enjoy the telling.

When I left the beach yesterday two ladies stopped me and treated me to dinner. I found a dollar in my shoe (hanging on the handle bars) after I left them. About 16 miles later, here they came again! They had told a friend about me and she had to see it to believe it. They said they drove sixty miles an hour to catch up with me. The third lady insisted on giving me five dollars. I just can't understand my luck! I'll never be able to do enough to deserve such happiness! I'm hopelessly indebted for life to try to be good and help others to happiness!

Love,
Norma.

THE NEW INDUSTRIAL REVOLUTION

The world is on the threshold of a new Industrial Revolution.

The first was based on man's discovery that machines could serve him. But soon he was called to serve the machine and became their slave. Where that happened, the revolution was soul-destroying. Its end was economic breakdown and the atom bomb.

In the new Industrial Revolution people are more important than things. Men regain their freedom .This revolution is soul-restoring. It releases the full creativeness of all engaged in industry. It sets men free to give their best and will build the world that everyone is looking for.

There is a bigger choice in industry than between free enterprise and state control. The real battle line is between those who treat people as a means to a material end and those to whom the material and spiritual needs of people are the first concern. It is between those who fight for their own way, whatever the cost to others, and those who fight the right way, whatever the cost to themselves.

The first Industrial Revolution was made possibly by science, human skill and finance. The second can only come by change — change in the human heart. It may call for as much change in the heart of the Capitalist as in the heart of the Communist. It puts as much responsibility in the hands of the business men and labor leaders as in the hands of statesmen and military leaders.

The forgotten factor in industry is that God has a plan. It is a plan based, not on the limitations of the status quo, nor on a rearrangement of manpower and materials. It depends, not on present machine power, nor on atomic energy, but on the energy released when men are freed from greed and fear. It uses not only the visible, tangible resources of money and materials, but also the mighty resources of the human heart and spirit.

Ceramic Classes To Be Taught In Adult Education

Frederick A. Bunge, principal of Northwest Adult Evening High Schools, announced this week that classes in ceramics, the art of making dishes, vases, and other pottery from clay, will again be offered to the people in the Point Loma-Ocean Beach area this fall. Classes will be conducted by Mrs. Hattie Kenneth, last year's instructor at the Ocean Beach Elementary School. Due to changes now being made in the school districts the place for this year's classes has not been named. "In all probability they will be held either in the Ocean Beach Elementary School, or at Mid-Way School," said Mr. Bunge. Day and evening classes are planned.

"For only the cost of materials anyone with a sense of neatness can execute beautiful ceramics, learning the fundamentals of clay modeling, clay baking and glazing after a session in these classes", said Mrs. Olive Camporini, instructor at the Bayview Terrace Club House, where she has been conducting summer classes. Watch this paper for registration dates.

BIRTHS

Apologies to Mr. and Mrs. William H. F. Riese of 3936 Bernice, whose youngest child was born June 2. The News is embarrassed because we missed mention of the fact then. The newest Riese is called Glenn Allen and first greeted his public at Hillside hospital in San Diego.

Mr. and Mrs. Daniel C. Whitworth of 718 Cordova are the parents of a son born July 23.

ECHOES OF THE PAST

Excerpts from the Ocean Beach News of 20 years ago Saturday.

The innocent-appearing castor bean was the victim of an ordinance passed by the city council in August of 1927, requiring that all plants of this type be eliminated. The law maintained that the bush carries a harmful poison.

From Storkland came the intelligence that a son was born to the Arthur R. Tibbetts here.

Said the Beach News, "A very striking and handsome new electric sign was hung over the entrance to Kraft drug store this week". (Issue of August 13, 1927) "The sign bears large white lettering on a blue background, and is a decidedly attractive addition to the fine business there".

Another item stated: "In the recent auto contest conducted at the Mission Beach Amusement Center, William Lester Near, well known electrical constractor of 4935 Brighton, was awarded the prize for the "jazziest" stripped-down Ford car. The preliminary work was done in the Ocean Beach garage."

That week, too, the Ocean Beach firetruck, on its way to a fire on Point Loma collided with the La Playa streetcar on Ft. Rosecrans Dr. Sid Love was driving.

Major and Mrs. James Jacks of 4683 Pescadero last week received a visit from their niece, Mrs. Kendrick Shaw of Gary, Ind., who arrived July 23 and plans to spend a month at the Jacks home. Very pleased with Ocean Beach, Mrs. Shaw says she will extol its virtues to her family when she returns to Gary, and perhaps will return with them to make a permanent home here.

Laundry *continued*

(From Page One)

Equipped Half-Hour Laundry, will have 20 Laundromat automatic washers set in a modern styled, fluorescent lighted room."

"A lounge room with comfortable chairs is provided for the convenience of patrons where they can rest while the clothes are being automatically washed. A playyard will be added at a later date where children can amuse themselves.

"The coin-operated Laundromats used in the Half-Hour Laundry are identical to the consumer model, and the patron can regulate the washing time and water temperature to fit the needs of the clothes, whether they are lightly or heavily soiled, or, whether they are cotton, wool, or synthetic fabric.

"The patron is assigned as many machines as she needs to complete her entire washing at one time, and, as an additional convenience, all washings can be scheduled so that no person will have to wait for a machine."

"The Ocean Beach installation is based on plans prepared by Westinghouse Electric Appliance Division at Mansfield, Ohio, and the Automatic Laundry Distributors, Inc.

"A woman can take her washday bundle to the Half-Hour Laundry, and her only task is to load the machine, add the necessary soap or detergent, set the dial for the type of clothes being laundered, and turn on the starting switch. Thirty minutes later, or in less time, the clothes are washed and damp dried.

"Water is kept at the right temperature and at rain water softness. A trained laundry expert supervises all the washings and advises patrons on their washday problems.

"The Laundromat automatically washes, rinses and removes most of water from the clothes so that it is almost impossible to wring a drop of water out of them. The automatic washer fills itself with water and at the end of the washing and rinsing periods pumps the water away, cleans itself, then shuts off."

Mr. Kerr also said that when available, automatic clothes dryers and electric ironers will be installed at this Laundry.

Legion Post Will Again Stage Yule Toy Repair Drive

Clyde A. Wright Post No. 433 of Ocean Beach has decided to again hold their drive for broken toys which they will repair and distribute at Christmas time to needy children of this community. The Post is starting earlier than last year and in that way hopes to help considerably more families than the 50 families that they assisted in this worthy campaign last year.

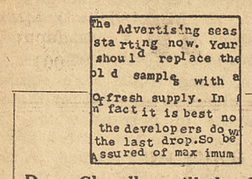
Commander S. G. Fold of the Post this week asked The News to announce their plea for broken toys as follows:

"Anyone having broken toys who would like to donate them to the American Legion, Clyde A. Wright Post No. 433, same to be used for Christmas presents for underprivileged children are asked to get in touch with the Post commander soon as possible.

"The toys will be repaired and distributed during the Christmas holiday season.

"Anyone and everyone having such toys to donate are asked to telephone Commander Fold at Bayview 3241, or the toys can be left at his home, at 2345 Seaside St. in Ocean Beach."

It's a Cockeyed Mess!



Dave Chandler will do the job in person!

Does your secretary lisp? Of course not! But maybe her typewriter does. Take a look at your letters. Are there cockeyed letters, messy margins, dim places where the ribbon just wouldn't budge. Your correspondence speaks for you. Be smart. Call Dave Chandler to fix that typewriter.
